IceStorm 45

The IceStorm45™ blasting machine is the most efficient and environmentally friendly industrial cleaning tool in the industry. The design basis focused on simplicity, which translates through to the exterior, operational controls, and internal workings of the unit.

NEW FEATURES

Use Less Air

The IceStorm 45 uses half the CFM of the IceStorm90 and 90+ which means smaller compressors can be used.

Light weight

Not only is the machine itself more than half the weight, our nozzles and gun have had a redesign to reduce weight, making this a safer machine to operate.

Applications

The same uncompromised performance of the IceStorm 90+ tackling countless applications; lead paint abatement, asbestos removal, marine, graffiti, pulp & paper, food industry, fire & building restoration and many more.

UNCOMPROMISED PERFORMANCE

- Non-pressurized hopper
- 45 lbs ice/ 45kg of dry ice
- 120V /12A North American
- or 230V/8A European version
- WEIGHT:** 195lbs
- Compact:** 39" x 22" x 36" (LxWxH)
- OPERATING PRESSURE:**
 - 90PSI -210PSI
- 135CFM to 295CFM
- Onboard regulator
- PSI gauges measuring pressure in and out
- Variable feed rate: 0 -5 lbs per minute
- Anodized exterior panels
- 24 month or 1200 hr warranty
- Lower levels of airborne contaminates
- Superior internal ice crusher
- Simple operational controls
